How to upgrade Repute 1.0 to Repute 1.5

The following instructions explain how to update the licence on your Geocentrix-supplied security key, to allow you to run Repute 1.5
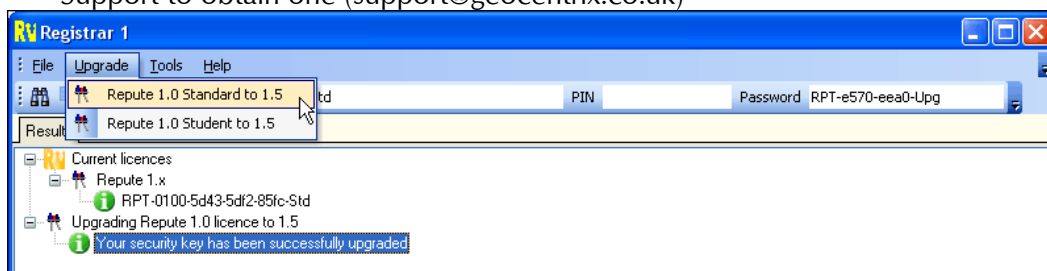

1. Install Repute 1.5 as explained in the attached "How to install Repute 1.5" instructions. If you wish to continue running Repute 1.0, you can leave it on your computer provided you are running Service Release 10 (available on the Geocentrix Software CD in the "Previous Versions" folder).

2. From the CD Browser (right) click on the text **"Click here to install Registrar 1"** or the arrow 🔼 alongside it to run the Registrar installation program.

3. When asked "Do you want to run or save this file?" click **Run**. If a security warning appears, click **Run**.

4. Follow the onscreen instructions to install Geocentrix Registrar, and click **Finish**, then click **Exit** to close the Geocentrix CD Browser.

5. Attach your Geocentrix-supplied security key to your computer.

6. Run Registrar by choosing **All Programs > Geocentrix > Registrar 1** from Windows' Start Menu.

7. Enter your company's name in the Company Name box and press ENTER.

8. Enter the password provided by Geocentrix in the Password box and press ENTER. If you do not have a password please contact Geocentrix Technical Support to obtain one (support@geocentrix.co.uk)

9. Click the appropriate command on the program's Upgrade menu, e.g. "Repute 1.0 Standard to 1.5".

10. The program's main window will display a message indicating whether the licence stored in your security key was upgraded successfully or not.

11. Click **Exit** on the program's File menu.
You can now run Repute 1.5 from **Start > All Programs > Geocentrix > Repute 1.5**
