# How to install ReWaRD 2.5

1. Place the Geocentrix Software CD in your CD-ROM drive. The Browser (right) should automatically appear (if not, run **SETUP.EXE** from the CD's root folder).

2. Click on the text **"Click here to install ReWaRD"** or the arrow alongside it to run the ReWaRD Setup program.

3. When asked "Do you want to run or save this file?" click **Run**. If a security warning appears, click **Run**.

4. When the ReWaRD Setup welcome screen appears, click **Next**.

5. Read and accept the License Agreement and click **Next**. Then review the Release Notes and click **Next**.

6. Select the features you want to install, choose a product install path, and click **Next**.

7. When you are ready to update your system, click **Next**. The ReWaRD Setup program will install the necessary files on your system.

8. When setup is complete, click **Finish**. The HASP Device Driver setup program will then start, allowing you to install the drivers necessary for ReWaRD to communicate with its security key. Follow the on-screen instructions.

9. When the HASP setup is complete, click **Finish**. If you ticked the **Run ReWaRD** button, ReWaRD will start automatically and display its Licence Registration Wizard.

10. Enter your user information <u>exactly</u> as given on the program's packaging, make sure the supplied security key is attached to your computer, and click **Register** to run ReWaRD.

To learn how to use the program, we suggest you follow Tutorials 1-3 in the program's *User Manual* (available in Adobe PDF format from **Start > All Programs > Geocentrix > User Manuals > ReWaRD 2.5 User Manual**).
