

REPUTE 3 FAQ

HOW TO INSTALL REPUTE 3

1. **Download** the latest Repute 3 Setup program to your Desktop. You can find the setup program (Repute3Setup64.exe) here:

www.geocentrix.co.uk/repute/update

2. Right-click on Repute3Setup64.exe and **select Open**. The setup program will start
3. On the opening page of the installer, click **Next** to begin
4. Read the **Repute 3.0 Readme** file for information about what's new in the latest release. Click **Next** to continue
5. Select the installation folder. Click **Next** to continue
6. Read and accept the Licence Conditions for Geocentrix software. Click **Next** to continue
7. Click **Install** to begin the installation
8. You might be asked "Do you want to allow this app to make changes to your device". Click **Yes** to continue
9. The installer will copy Repute program files to your computer; remove any previous installation of Repute 3; remove backup files; and then start Repute.
10. If you are updating an existing installation, then the program should be ready to use straight away. If you are installing for the first time, you will need to install and/or register your licence, as explained below.
