

REPUTE 3 FAQ

HOW TO REGISTER A REPUTE 3 LICENCE

You must register your Repute 3 licence so that the program knows where your licence is installed.

- For HL licences, this will be on the supplied USB key (dongle)
- For SL licences, this will be in a secure location on one of your computers

IMPORT A LICENCE FILE

If you have been sent a licence (.lic) file by Geocentrix ...

1. Save the licence (.lic) file to a temporary location on your computer (e.g. C:\Temp).
2. Run Repute and select **Licence > Licence Registration** on the main menu.
3. Click the **Import...** button, select the .lic file, and click **Open**.

IMPORT A LICENCE AUTOMATICALLY

You can automatically import your licence by downloading it from the web ...

1. Run Repute and select **Licence > Licence Registration** on the main menu.
2. Enter your **Licence Number** into appropriate box and click the **Renew** button.
3. Repute will automatically download your licence from the web.

FINALLY ...

4. If you have a **Network Licence**, tick the corresponding checkbox and enter the **IP Address** or **Hostname** of your server into the appropriate box.
5. Click **OK** to save your licence to your local machine.

For further help, please contact Geocentrix Support quoting your company name and licence no.
